High Vibration Tinctures - Blends & Singles

Purely Living is a branch of High Vibration Life Ministries PMA. We organically grow our own herbs and forage for berries and plants nearby, ensuring chemical free growth. All plants are sustainably harvested with gratitude and handcrafted with love.

Qest4 bio-resonance equipment is used to imprint 528 hertz into all tinctures, also referred to as the "God frequency." Tinctures are small-batch crafted, proprietary blends are divinely guided. All tinctures are made with gluten free vodka unless otherwise indicated. Herbal tinctures are most effective when taken consistently for chronic conditions. Please visit our website to learn more about our association and approach to wellness. We offer bio-energetic scanning services, believing that the body, mind and soul are intertwined and cannot be separated.

If new to taking herbal tinctures it is often recommended to start with single herbs versus blends, to better determine allergies one may have. Tinctures have a shelf-life of 7 or more years when stored in a cool, dark place.

An instruction card describing various ways to take the drops, including how to evaporate alcohol and retain the benefits of the herb for children. If pregnant or breast-feeding pre-cautions must be taken and certain herbs avoided.

Using special equipment, PLW tinctures are uniquely imprinted with 528 hertz, which is often referred to as the “God frequency”, and also known for DNA repair. We also imprint with Tera Gap Hertz frequency.
