W29 Pro  
Multi-Energy H+  
Water Purifier

# The Importance of Water

Water makes up most of our body weight and is involved in many important functions, including:

Helps With Nutrient Absorption

Helps With Losing Weight

Protects Tissues, Spinal Cord & Joints

Helps Excrete Waste

Regulates Body Temperature

Helps Maximize Physical Performance

Improves Blood Oxygen Circulation

Boost Energy

Prevent Constipation

Aids In Digestion

Fight Off Illness

Aids In Cognitive Function

# THE RIGHT WATER

W29 Pro  
Multi-Energy H+  
Water Purifier

It is important to choose the right type of drinking water!

Healthy Life Begins From Choosing The Right Drinking Water

OlyLife W29 Pro Multi-Energy H+ Water Purifier gives you functional water that is clean, fresh, energized and rich in hydrogen!

W29 Pro  
Multi-Energy H+  
Water Purifier

# Hydrogen-Rich Water ( 3000 - 5000PPB)

W29 Pro  
Multi-Energy H<sup>+</sup>  
Water Purifier

Using the world' s leading technology, independent electrolysis module to electrolyze pure water to generate hydrogen, quickly mix and pressurize the hydrogen and drinking water through the water vapor mixing system creating ultra-high concentrated hydrogen-rich water.

W29 Pro  
Multi-Energy H+  
Water Purifier

# Characteristics of Hydrogen-Rich Water

## Strong Antioxidant Capacity

Hydrogen-rich water is rich in active hydrogen, which can effectively remove free radicals in the body and has stronger antioxidant effect compared to vitamin C, carrots, lecithin and other antioxidants known to humans.

## Stronger Penetration

Hydrogen-rich water, is small molecular water which is easy to absorb and has a strong penetrative power.

## Safe and Reliable

Hydrogen-rich water belongs to negative charged water, which has more affinity with human body which is weak alkalinity.

W29 Pro Multi-Energy H+ Water Purifier

W29 Pro  
Multi-Energy H+  
Water Purifier

# What is Hydrogen?

1

Hydrogen is the smallest molecule in nature and the most abundant element in the universe, accounting for approximately 75% of the mass of the universe.

2

Hydrogen is very penetrating and can easily penetrate ordinary containers such as plastic, glass, and aluminum foil, but it is not easy to store!

3

Hydrogen is also a "hydrogen molecule", which can enter any organ, tissue, cell, mitochondria and nucleus of the human body through the skin and mucous membranes.

4

Hydrogen has an ideal antioxidant effect, which can efficiently remove cytotoxic free radicals which is the source of all diseases and aging.

# Benefits of Hydrogen

1

## Antioxidant

Unlike ordinary antioxidants, molecular hydrogen (H<sub>2</sub>), having the smallest molecule is able to pass through the cell membrane. It is the only antioxidant that's able to access the cell nucleus, and the mitochondria.

2

## Faster recovery + balance pH of the blood

Hydrogen-rich water is shown to speed up recovery among athletes after an intense workout, which improved muscle function by reducing lactic acid build up. In addition, hydrogen water positively affected blood alkalinity in extremely active people.

3

## Decreases Inflammation

There are other antioxidants that may help fight inflammation, however, they aren't selective. This leads to the possibility of neutralizing both harmful free radicals and beneficial ones. Molecular hydrogen, on the other hand, is selective and targets bad radicals.

4

## Improve Metabolic Syndrome

Studies have shown that hydrogen rich water improve levels of insulin and reduce blood cholesterol levels and prevent obesity and diabetes.

# Hydrogen, The Nemesis of Free Radical

W29 Pro  
Multi-Energy H+  
Water Purifier

Water that has been processed with hydrogen content will combine with free radicals that can be eliminated from the body through metabolism. It also controls the formation of free radicals for health regulation.

Source of Free Radical

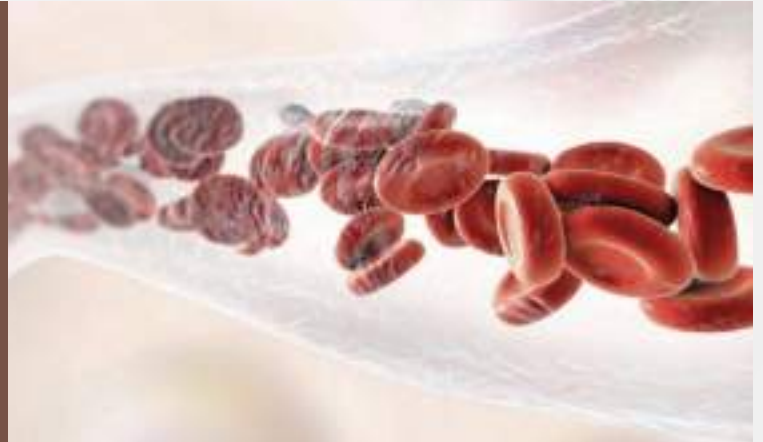

# Quantum Energy

**Quantum energy** is an electromagnetic wave that has a strong penetration property. It can penetrate deep into the cell tissues to produce resonance with heavy metals in the blood vessels.

## Function of Quantum Energy:

- Converts water molecules into small molecule water.
- Helps to clean up fats, cholesterols, triglycerides and stones in blood vessel.
- Hydrate and stimulate cells.
- Repair damaged cells.

# Quantum Energy highlights

W29 Pro  
Multi-Energy H+  
Water Purifier

1. Boost human cell energy.
2. Increase body temperature, accelerate blood circulation, activate cells, relieve pain and achieve the ultimate goal of health.
3. Quantum uses the principle of frequency resonance to resonate harmoniously with the bioelectricity of the human body, coordinate the current balance in the human body, shake off the lipid plaques, toxic dirt, and thrombus peel off the inner wall of the microcirculation.

W29 Pro  
Multi-Energy H+  
Water Purifier

# TeraHertz

TeraHertz (THz) is a measurement unit of frequency. It usually refers to the frequency of an electromagnetic wave, which is part of the electromagnetic spectrum that is invisible to the naked eye.

In the 1980s, American scientist discovered an infrared light that matches the vibration frequency of the human cells – TeraHertz waves. It can resonate with the human cells to activate the body cells.

**TeraHertz waves is later known as the “Wave of Life” .**

# Benefits of TeraHertz

## 1. Penetrate and warm biological effect

Terahertz waves can penetrate human skin 3-5 cm, directly act on deep tissues, replenish life cell energy, regulate body physiological functions, and accelerate cell generation and decomposition. The temperature of the subcutaneous tissue increases, blood vessels dilate, and blood flow accelerates. Promote blood circulation, strengthen metabolism, and accelerate nutrient absorption. The decomposition of waste, fat, and free radicals in the body is accelerated.

## 2. Resonance cell biological effect

It produces a resonance with the same frequency as the cells, stimulates the movement of water molecules in the body, increases the oxygen content and fluidity of the blood, promotes the activity of cells, and improves the microcirculation of the human body.

## Benefits of TeraHertz

### 3. Activate the biological effects of water molecules

Water molecules account for about 70% of the body's body weight, and cells account for about 40% of water molecules, therefore water molecules have an important influence on the activity of cells. TeraHertz activates water molecules, reduces blood viscosity, enhances cell regeneration, enhances immunity, and has the effect of delaying aging.

### 4. The biological effect of massaging skin cells

TeraHertz activates high-frequency vibration, which has a massage effect on skin cells, promotes sweat gland function, accelerates the excretion of waste in the body, dredges pores, reduces keratinization, makes the skin smooth and delicate, reduces wrinkles, and achieves the effect of skin beautification.

# Low Frequency Resonance

W29 Pro  
Multi-Energy H+  
Water Purifier

Low Frequency Resonance closely resembles the natural geomagnetic field found near healing water springs. Low Frequency Resonance Water is compatible with the cell water dynamic multilayer molecular structuring described by Dr. Gilbert N. Ling.

Low Frequency Resonance Water easily penetrates through small porous and capillaries in the body, improves hydration and stimulates the function of cells in biological systems.

W29 Pro  
Multi-Energy H+  
Water Purifier

# Benefits of Low Frequency Resonance

Prevents Cellular Dehydration

Improves Nutrient Transport

Detoxification of The Body

Has an Antibacterial Effect

Inhibit the Growth of Mutated Cells

Enhance the Vitality of Healthy Cells

W29 Pro  
Multi-Energy H+  
Water Purifier

## Multi-Functional All in One Water Purifier

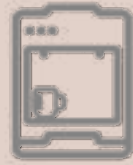

Integrated Filtration, Heating, Energy and Hydrogen-rich Water  
Small and Powerful Machine, No Need for Installation, Can Be Moved Freely.

- ✓ Instant Hot Water
- ✓ Multiple Temperature Functions
- ✓ Fresh Clean Water
- ✓ Hydrogen-Rich Water
- ✓ Multi-Energy Water

+

+

+

✗ No Expensive Filter

✗ No Non-Fresh Water

✗ No Boiling

✗ No Waiting

W29 Pro  
Multi-Energy H+  
Water Purifier

# LARGE- Satisfy Continuous Usage

## Large Flux Membrane, Large Water Tank

### 200G Large Flux Membrane

Water production capacity of 520ml/min, water supply capacity is greater than water output for a sustainable water supply.

### 2.5L Large Built-in Water Tank

Pre-storage of water, zero waiting time for water discharge.

W29 Pro  
Multi-Energy H+  
Water Purifier

## Safer Water Quality

### UVC Sterilization

Built-in UVC Sterilization and Antibacterial LED to ensure safe water quality.

### Flexible Built-in Water Tank

Detachable water tank; there will be a small amount of sediment inside the water tank after long-term usage, the tank can be remove for cleaning.

W29 Pro  
Multi-Energy H+  
Water Purifier

# Three Advantages

## 3 Seconds Quick Heating

Latest heating technology, boil water in 3 seconds, better water quality.

## 4 Filtration Level

3-Stage Filter Elements, 4-Stage Purification; Reverse Osmosis Filtration, Strontium-rich mineralization filter and carbon rod composite filter.

## 6 Stages of Temperature

Room temperature water, Warm, Milk, Tea, Coffee and Boiling Water

W29 Pro  
Multi-Energy H+  
Water Purifier

## 3 Filter : 4 Stage Purification

Filter Heavy Metals, Retain Beneficial Minerals

Quick-Connect Disposable Filter, Easy Installation

### ① PAC Composite Filter Element

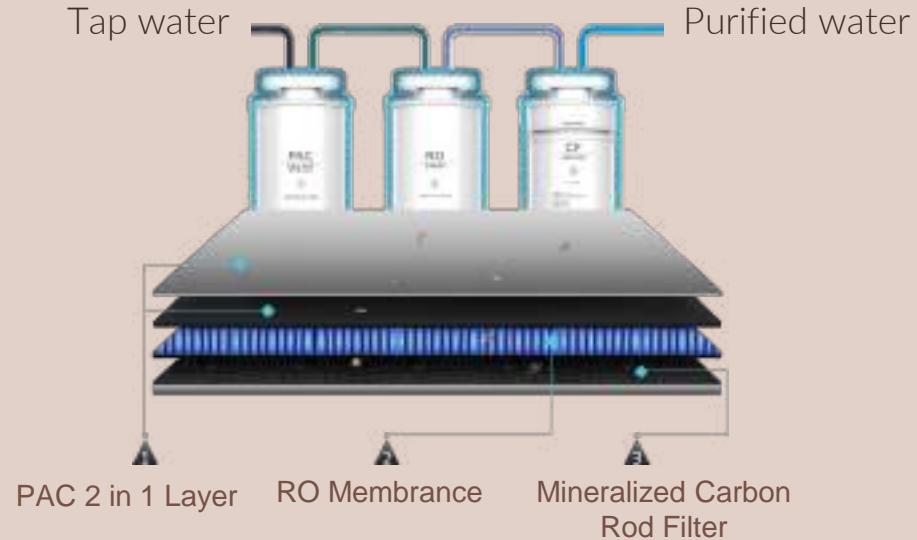

Filter out large particles of pollutants such as sediment, rust, colloid, bacteria, microorganisms and residual chlorine.

### ② 200G Large Flux Membrane

Absorb odour and colour.

### ③ Mineralized Carbon Rod Filter

Further absorbs colours and odours, increases minerals such as strontium and enhance the quality of water.

W29 Pro  
Multi-Energy H+  
Water Purifier

## Second Stage: RO Membrane (200G Large Flux)

Material: RO Reverse Osmosis Membrane

### Introduction

First used by astronauts when in space. Using NASA aerospace-grade RO membrane to filter urine and sweat to become drinking water again.

### Working Principle

①Adopted High-tech Aerospace-grade RO Reverse Osmosis technology, the theoretical purification accuracy is 0.0001 micron, filter out bacteria, chemical residues, radioactive particles, microorganisms, organic matter and other harmful substances in water.

②200G Large Flux Membrane, Super Fast Water Replenishment

Bacteria	Virus	Antibiotic	Rust	Inorganic Matter	Organic Matter
0.4-0.5 $\mu$ m	0.01-0.1 $\mu$ m	0.001-0.01 $\mu$ m	0.0005-0.005 $\mu$ m	0.0002-0.0005 $\mu$ m	Molecular Weight Greater Than 100

# Third Stage: CF Composite Carbon Rod

## Natural Trace Mineralization

W29 Pro  
Multi-Energy H+  
Water Purifier

18 kinds of Natural Mineral Rocks  
Stabilize the PH value of the water  
Material: 18 types of Natural Mineral

### Working Principle

Adopted from 2 major national innovative technology patent, PCC modification process; greatly increase mineral surface area and ion exchange absorption capacity.

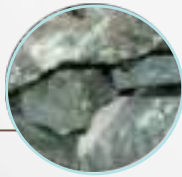

### Water Quality

Compliance with environment protection;

**Slight Alkaline**, pH stabilized between 7.0 and 8.5.

**Rich in Trace Elements**, maintain its mineralization effects even after 15 months of continuous usage.

# Ultra-Concentrated Hydrogen-Dissolving Water Technology

W29 Pro  
Multi-Energy H+  
Water Purifier

World' s leading technology; Independent Electrolysis Module to electrolyze pure water to generate hydrogen, quickly mix and pressurize the hydrogen and drinking water through the water vapor mixing system; hydrogen can be instantly dissolved to generate ultra-high concentrated hydrogen-rich water.

# SuperMix Gas-Liquid Mixing Technology

## Gas Dissolution Process

Refers to the process when gas molecules enter the interior of liquid molecules through the process of thermodynamic equilibrium.

### SuperMix Gas-Liquid Mixing Technology

High-speed relative flow of water is used to cut free hydrogen between water molecules at high speed in a confined space, forming a large number of micron and submicron hydrogen bubbles, which greatly increases the gas-liquid contact area. This greatly shortens the time of the hydrogen dissolution process.

### Patented Design

The patented interception channel injects compressible hydrogen gas at high frequency, reduce the collision probability of dissolved hydrogen molecules in the same direction, and increase the hydrogen molecules in water.

W29 Pro  
Multi-Energy H+  
Water Purifier

## 3 Seconds Instant Heating

Instant Filtration and Boiling, Freshness In Every Drops!

Explosion-proof stainless steel core

Heat quickly penetrates each water molecule

Latest generation 3-seconds heating technology

Fresh water quality, No repeated heating

W29 Pro  
Multi-Energy H+  
Water Purifier

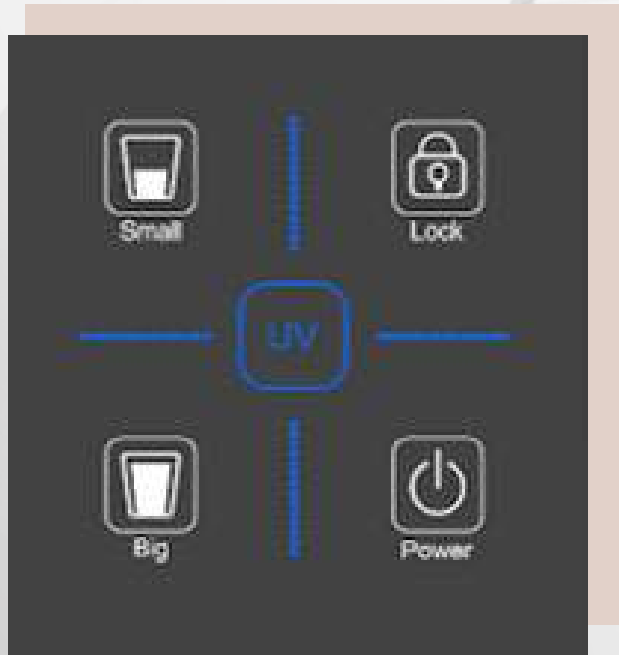

---

## 6 Stage Adjustable Temperature Control

Control the temperature to easily meet  
the needs of different kind of drinks!

## Volume Control

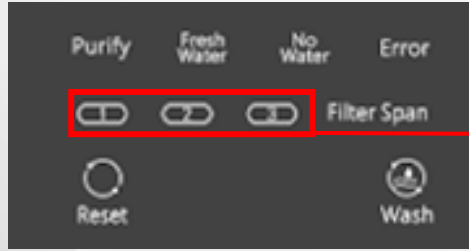

150ml, Small

300ml, Big

1000ml, Maximum when  
didn't choose discharge  
mode.

## Filter Maintenance Reminder Worry-Free

When the service life of the filter reaches 80%, the bright orange light will flash. When it is due, the orange light will be always on.

PAC Filter  
Service Life:  
6-12 months  
(200L)

RO Filter  
Service Life:  
12-24 months  
(400L)

CF Filter  
Service Life:  
6-12 months  
(200L)
